

**DURING THIS CRISIS KEEP LOOKING UP... "Our help comes from the Lord the Maker of heaven and earth." Also read Psalm 91.**

We are nearly caught up with our waiting list of those who wish a personal appointment with Dr. Ingram. If your case is critical we can get to your needs quicker if you mail in your pet's DNA. Conducting a consultation with DNA would be no different than if we held your pet in the exam room. Please phone or email FRAH@COMCAST.NET for information on how to do this process.

Many of our regular clients have also, during this time, chosen the option of us conducting visits and rechecks with their pet's DNA.

If you have any questions concerning your pet's health or would like to make an appointment to see Dr. Ingram please phone the animal hospital during regular business hours... Note: We often work after hours... If a need arises and we are in the building we will pick up the phone! 615-377-6457.

**Please do NOT attempt to leave messages on the phone recorder as we do not have the time or personnel to return these calls.**

(Please phone the office for details on how this process works.) (We are also currently STILL dealing with the widening of Franklin Road.) Thanks everyone for all the prayers!**

**We can do LONG DISTANCE CONSULTATIONS using your pet's DNA. □ We are able to diagnose ailments & prescribe herbal treatments, do food allergy testing, etc. using Applied Kinesiology or Muscle Testing. This allows us the freedom to work after hours and take care of your pet's needs and saves many clients hours of drive time. If you would like more information on how to proceed in this manner you can phone the office or email me (Barbara Ingram)...
