

We believe according to scripture in Mark 16 that you will lay hands on the sick and they will recover. Far too often we go to God in prayer for healing as a last resort, when it should be the first place we turn. Over the years we have found that there are specific keys to healing-- one is FORGIVENESS, another is DELIVERANCE. We always have the time to pray for our four-legged friends and also for the two-legged ones as well. We have seen God work miracles at our animal hospital. We have also seen several cases in which we were not able to bring a healing about in the animal until the owners were fixed.
